

THE FALLEN STATE OF MANKIND

MIND: Place where choices are made. Heart replaces departed Spirit of God with evil intent and purposes. Blood relatives and emotions and feeling from love to hate are kept alive by the evil nature.

All of man is built upon man's desires and his pleasures.

Man's soul comes under the control of the darkness from which he is born. His soul is eternally condemned for his rebellion and disobedience against God.

The fallen state of man is without the Spirit of life. Man is controlled by his soul and evil heart, causing him to obtain the fallen state of being like God, equal in wisdom, knowledge and understanding. It causes him to live for mankind, believing in self life and self attainment in all matters of his life.

The fallen state causes man to search all matter to fill the empty void that is in his being where the spirit dwelled before the fall. Man searches to fill but cannot. Man longs to be with his Creator, but Satan deceives man with pride and the boast of life and with the lust of his eyes and the lust for flesh. So man cannot help himself and requires salvation from self and the darkness.

Satan, the god of fallen man, operates from outside the body, inside the body and the soul realm of man to suppress, steal, kill and destroy through circumstances, people, body and the soul; as well as to control man's will and keep it in subjection to the darkness of the fallen state of rebellion. All societies, cultural and traditions are based upon man and his ideas of mankind, as he continues to eat of the tree of knowledge.

Man cannot see the light of God nor dwell with God. All of the Kingdom of God stands against man due to the state of rebellion man has become. There is not one righteous but all have fallen short and requires redemption and salvation that can only come through Jesus.
